While searching for clues in a murder victim's apartment, Detective Taylor McIntyre stumbles upon an intruder. Thinking she's got her killer, Taylor handcuffs him to a railing. The next morning, she's shocked when she runs into her "fugitive" at the police precinct. Even more infuriating is her undeniable attraction to him. Private investigator J. C. Laredo finds Taylor's tough-as-nails demeanor a turn-on. And her stubborn refusal to accept his help in the murder investigation doesn't deter him. He always gets what he wants. But as the body count rises, J.C. and Taylor must race to find a twisted serial killer—before he finds them...

You'll learn how to use basic D3 tools by building visualizations based on real data from the New York Metropolitan Transit Authority. Using historical tables, geographical information, and other data, you'll graph bus breakdowns and accidents and the percentage of subway trains running on time, among other examples. By the end of the book, you'll be prepared to build your own web-based data visualizations with D3. Join a dataset with elements of a webpage, and modify the elements based on the data Map data values onto pixels and colors with D3's scale objects Apply axis and line generators to simplify aspects of building visualizations Create a simple UI that allows users to investigate and compare data Use D3 transitions in your UI to animate important aspects of the data Get an introduction to D3 layout tools for building more sophisticated visualizations If you can code and manipulate data, and know how to work with JavaScript and SVG, this book is for you.

with a dodgy-looking bloke, leaving Pixie to pay the rent and fend for herself. Pixie, along with her best friend Rita, Em, the factory overseer, and the rest of the girls are making the most of the war while trying to stay alive. The work is dangerous and the hours long, but in the evenings they take off their overalls and go to the pub or, better still, go dancing. Pixie meets American serviceman Cal and falls in love. But then Cal rejoins his ship. When Pixie falls pregnant, her life changes dramatically. Alone and unable to work, she has to rely on the kindness of friends to help her survive. Happiness seems like a thing of the past. Little does she know that there are plenty of surprises waiting for her - good ones at that. Love may be closer than she thinks.

Although neo-liberalism has been critiqued from various perspectives, these critiques have not coalesced into a concrete alternative in development economics literature. The main objective of this book is to name and formulate this alternative, identify what is new about this viewpoint, and project it on to the academic landscape.
