Disconnect, a book about cell phones by Devra Davis

Most of us suspect that cell phones are not good for us. As we all become addicted to them, I think it's important to know the truth. This book gives the facts the cell phone companies don't want us to know. The facts other governments outside the US are giving their citizens. The book also shares ways to protect ourselves as we use cell phones.

Amazon.com: Customer reviews: Disconnect: The Truth About ...

Since the invention of radar, cell phone radiation was assumed to be harmless because it wasn't like X-rays. But a sea change is now occurring in the way scientists think about it. The latest research ties this kind of radiation to lowered sperm counts, an increased risk of Alzheimer's, and even cancer. In *Disconnect*, National Book Award finalist Devra Davis tells the story of the dangers that the cell phone industry is knowingly exposing us-and our children-to in the pursuit of profit.

Devra Davis

Disconnect : The Truth about Cell Phone Radiation by Devra ...

Disconnect is highly selective and totally biased in discussing only studies that support its point of view, it rejects contrary studies accepted by the majority of mainstream scientists as the product of some vast conspiracy, and it completely misstates the findings of key studies that find no harm from cell phones. She interviewed only a relatively small group of dissident scientists who are outside of the mainstream.

Leading to memory loss, and increased risk of cancer, reduced sperm counts, and neurological diseases such as Alzheimer's and possibly even autism. Mobile phones, it seems, are not as safe as we had supposed. In this riveting expose, Dr Devra Davis, respected epidemiologist and founding director of the toxicology and environmental studies board at the United States National Academy of Sciences, clearly outlines the dangers posed by mobile-phone radiation – particularly to children, whose growing brains are especially vulnerable. Drawing on interviews with key players within the trillion-dollar mobile-phone industry and presenting a range of recent and long-suppressed research, Dr Davis makes a compelling case for changing the way we make and use mobile phones. For the close to five billion mobile-phone users worldwide, this truly is essential reading. 'A critically important book that is a must-read for parents and policy makers. A surprising, well-documented, and compelling call for action.' - Phil Lee, MD, former United States assistant secretary of health 'An amazing and important book that must be read to be believed. Are these devices safe for humans? The 'don't ask, don't tell' approach of the industry is irresponsible at best, criminal at worst. Read and learn why and how to protect yourself and your loved ones,' - Mark Hyman, MD, author of The UltraMind Solution and chairman of the Institute for Functional Medicine

Everyone knows mobile phones are safe. If they weren't, we'd already know about it, right? That is perhaps the greatest disconnect of our age. As research scientists are now demonstrating, mobile-phone radiation can damage the human body's cells — leading to memory loss, an increased risk of cancer, reduced sperm counts, and neurological diseases such as Alzheimer's and possibly even autism. Devra Davis

Foreword by Juhi Chawla Mehta Bollywood star and philanthropist The Truth About Cell Phone Radiation More than five billion cell phones are currently in use, and that number increases every day. Yet, the latest research ties cell phone radiation to lowered sperm counts, an increased risk of Alzheimer ' s, and certain types of cancer. What are cell phone companies doing to increase product safety? And how far will they go to protect their interests? In *Disconnect*, Devra Davis, a National Book Award finalist, offers a clear and compelling account of the sea change that has taken place in way physicists and biologists think about radiation in the microwave spectrum. Synthesizing the cautionary advice of leading experts in bioelectromagnetics and neuroscience, Davis explains the simple safety measures that we must take – before it ' s too late. DEVRA DAVIS PhD, MPH, is an award-winning scientist and writer. She is also the critically acclaimed author of *The Secret History of the War on Cancer*. President of Environmental Health Trust, a nonprofit research and educational group, Davis lectures around the world and blogs for Huffington Post. She lives in Washington, D.C., and Jackson Hole, Wyoming, with her husband.

An exposê of the mishandling of the war on cancer looks at how the influence of industries making or using cancer-causing products affects government policy, laws, and research regarding the causes, prevention, and treatment of cancers.

"As [*Disconnect*] shows, cell phones may actually be doing damage to far more than our attention spans-and could, in fact, be killing us." -Salon.com. Since the invention of radar, cell phone radiation was assumed to be harmless because it wasn't like X-rays. But a sea change is now occurring in the way scientists think about it. More than five billion cell phones are currently in use, and that number increases every day. Synthesizing the findings and cautionary advice of leading experts in bioelectricalmagnetics and neuroscience, Davis explains simple safety measures that no one can afford to ignore.

When Thomas Edison began wiring New York City with a direct current electricity distribution system in the 1880s, he gave humankind the magic of electric light, heat, and power; in the process, though, he inadvertently opened a Pandora ' s Box of unimaginable illness and death. *Dirty Electricity* tells the story of Dr. Samuel Milham, the scientist who first alerted the world about the frightening link between occupational exposure to electromagnetic fields and human disease. Milham takes readers through his early years and education, following the twisting path that led to his discovery that most of the twentieth century diseases of civilization, including cancer, cardiovascular disease, diabetes, and suicide, are caused by electromagnetic field exposure. In the second edition, he explains how electrical exposure does its damage, and how electricity is causing our current epidemics of asthma, diabetes and obesity. Dr. Milham warns that because of the recent proliferation of radio frequency radiation from cell phones and towers, terrestrial antennas, Wi-Fi and Wi-max systems, broadband internet over power lines, and personal electronic equipment, we may be facing a looming epidemic of morbidity and mortality. In *Dirty Electricity*, he reveals the steps we must take, personally and as a society, to coexist with this marvelous but dangerous technology.

Everyone knows mobile phones are safe. If they weren't, we'd already know about it, right? That is perhaps the greatest disconnect of our age. As research scientists are now
