Savant definition is - a person of learning; especially : one with detailed knowledge in some specialized field (as of science or literature). How to use savant in a sentence. Did You Know?

A renowned stage magician reveals the secrets of The Mentalist's brainpower. On the hit television show The Mentalist, protagonist Patrick Jane employs his keen powers of observation and mental acuity to assist the police. Now, noted stage magician Simon Winthrop explains How to Be a Mentalist by revealing how Jane comes to his startlingly accurate conclusions- and also asserts that it's possible for anyone to bring similar skills to bear in their everyday life. Featuring intellectual and physical exercises, readers will learn how to reach their fullest mental potential by enhancing memory, developing observational abilities, using persuasion, and much more.

Were there groups in Ancient Judaism that cultivated esoteric knowledge and transmitted it secretly? With the discovery and burgeoning study of the Dead Sea Scrolls and particularly of the documents legislating the social structure of the Qumran group, the foremost paradigm for analysis of the group's social structure has become the "sect." This is still dominant, having replacing the monastic paradigm used by some of the earliest scholars of the Scrolls. But after studying what has been written on secret societies more generally, Michael Stone has concluded that many known ancient Jewish groups-the Qumran covenanters, Josephus's and Philo's Essenes, and Philo's Therapeutae-should be viewed as societies at the heart of whose existence were esoteric knowledge and practice. Guarding and transmitting this esoteric knowledge and practice, Stone argues, provided the dynamic that motivated the social and conceptual structure of these groups. Analyzing them as secret societies, he says, enables us to see previously latent social structural dimensions, and provides many new enriching insights into the groups, including the Dead Sea covenanters. By examining historical and literary sources, Stone uncovers evidence for the existence of other secret groups in ancient Jewish society. This line of study leads Stone not only to consider the "classical" Jewish apocalypses as pseudo-esoteric, but also to discern in them the footsteps of hidden, truly esoteric traditions cultivated in the circles that produced the apocalypses. This discovery has significant implications, especially

considering the enormous growth of study of the apocalyptic in the Judaism of the Second Temple period and in nascent Christianity over the last seventy years.

Chicago, 1947. Private investigator "Matt" McBride runs afoul of corrupt politicians, vicious mobsters and a trigger-happy Texan femme fatale to prove that the "suicide" of his best friend was murder. Matt's perilous journey to track down the killer nearly dead-ends in a motor home on collision course with a cargo plane.

A group once counting millions of practitioners successfully uncovered fantastic amounts of information concerning the universe. Discovering anything about the universe outside our small world is an extreme rare event in history. Technically, such depth of information never occurred at any time on Earth, including data recovered by the Magi. This group, Scientology, recovered a profound amount of data, some of which is related within Secrets of Past Lives. Millions of practitioners independently acquired this information before evil destroyed them as a group. Before the downfall, hundreds of thousands of people and more recovered much of the secrets contained within this work. As there are no further people recovering in that church, there is no longer need to keep their secrets from you and from being lost for eternity. For the most part, this book is about you. Your history, your past and what is in your present. Also, Secrets reveals how ability and sanity at least equal to the sanest person you ever met this life can once again become your own without the need of that lost church. Sanity turns out to be nothing like most of us were led to believe. This book contains myriad aspects of this universe in its complexity and its utter simplicity never even suspected, such as what is going on in our world, the solar system, the local group and the entire universe. Revealed are a few great mysteries of science, secrets of Ancient Egypt, continental drift, why we are here, astronomical oddities and a vastly greater understanding of life. You will learn of who controls the core of space and why. You will find out why no one is in control of the remainder. You will discover what causes sunspots, variable densities of space, how our atmosphere smells and why. You will learn why magic does not work well unless it is fun. You will find out why gurus sit on mountaintops. You will find out why and who keep this vital and fascinating data from us. In our past, as we gazed at stars and saw magic and mystery, as we attempted to live on Earth, we fell to share opinions of what is reality from those who yelled the loudest. Our world became a twisted, warring, dangerous place no person should endure. This book dedicates to removing millennia of misinformation to set our sights once more on finding reality out of the ranting of Authority. To the chance of fulfilling our greatest desire: to discover a way to rejoin better worlds. Although reading these secrets is dangerous, you may key-in deeply, you will never look upon life the same again. It is not easy, it is not without risk, but wouldnt you rather know?

Brian Braun, a local Dallas photographer, believes he's hit Pulitzer pay-dirt when he receives an unusual call for an extraordinary photo shoot from a U.S. Senator. Afterward, however, Braun comes to realize his photographs have done more than record history. He's recorded one of the greatest hoaxes and politically devastating scandals that breeches beyond the boundaries of Watergate. The hoax is perpetrated on the American people by a private security firm that specializes in high profile political murder. Relying on his own streetwise wits, Braun has less than forty-eight hours to stay a step ahead of a highly motivated death squad and keep from being branded by history as the next Lee Harvey Oswald.

These simple math secrets and tricks will forever change how you look at the world of numbers. Secrets of Mental Math will have you thinking like a math genius in no time. Get ready to amaze your friends—and yourself—with incredible calculations you never thought you could master, as renowned “ mathemagician ” Arthur Benjamin shares his techniques for lightning-quick calculations and amazing number tricks. This book will teach you to do math in your head faster than you ever thought possible, dramatically improve your memory for numbers, and—maybe for the first time—make mathematics fun. Yes, even you can learn to do seemingly complex equations in your head; all you need to learn are a few tricks. You ’ ll be able to quickly multiply and divide triple digits, compute with fractions, and determine squares, cubes, and roots without blinking an eye. No matter what your age or current math ability, Secrets of Mental Math will allow you to perform fantastic feats of the mind effortlessly. This is the math they never taught you in school.

Starting in the 1530s with John Bale, English reformers found in the apocalyptic mysteries of the Book of Revelation a framework for reinterpreting the history of Christianity and explaining the break from the Roman Catholic Church. Identifying the papacy with antichrist and the Roman Catholic Church with Babylon, they pictured the reformation as a departure from the false church that derived its jurisdiction from the devil. Those who took the initiative in throwing off the Roman yoke acted as instruments of God in the cosmic warfare against the power of evil that raged in the latter days of the world. The reformation ushered in the beginning of the end as prophesied by St. John. Reformers and Babylon examines the English apocalyptic tradition as developed in the works of religious thinkers both within and without the Established Church and distinguishes the various streams into which the tradition split. By the middle of Elizabeth's reign the mainstream apocalyptic interpretation was widely accepted within the Church of England. Under Charles I, however, it also provided a vocabulary of attack for critics of the Established Church. Using the same weapons that their ancestors had used to justify the reformation in the first place, reformers like John Bastwick, Henry Burton, William Prynne, and John Lilburne attacked the Church of England's growing sympathies with Romish ways and eventually prepared parliamentarians to take up arms against the royalist forces whom they saw as the forces of antichrist. Scholars of sixteenth- and seventeenth-century intellectual history will welcome this closely reasoned study of the background of religious dissent which underlay the politics of the time.

Three college roommates try to live and enjoy their student lives while caught up in the frenzy of casual drug use, recreational sex, lacrosse, rock and roll music, political activism, riots, and race relations during the tumultuous 1969-70 school year in the unique student community of Isla Vista.

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America ’ s best-loved novels by PBS ’ s The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

Dr. Raymond Verity came back to life today. Awakening from an optical-cerebral transplant into a clone body, Ray is amazed at how society changed in the 27 years he was cryo-preserved. Having

pioneered cloning technology based on fetal tissue experiments, he has no qualms destroying imperfect samples. Until he meets his only granddaughter and falls in love with her despite her Down Syndrome. When he discovers that Mary Nell is scheduled to be “ replaced ” by her genetically-perfect duplicate, Dr. Verity embarks on a desperate mission to atone for his past sins. Can he save both Mary Nell and her clone? Body by Blood is a futuristic thriller which takes you on a heart-pounding journey that will call into question your core beliefs about life.
