Standard issue for all Starfleet Officers, this vital tool for space survival covers everything from space suit leaks and hotwiring a tri-corder to hostile alien encounters. Paying particular attention to the importance of initiative in situations where available technology is malfunctioning, The Survival Guide is broadly divided into the following sections: understanding alien technology; dealing with alien wildlife; modifying federation technology; and encountering temporal anomalies. There is information on essential Federation emergency equipment, and various extreme escape and survival scenarios are accompanied by actual accounts by legendary Starfleet heroes of their own dramatic improvisations. The whole is illustrated throughout with explanatory black & white line art illustrations, easy to follow in a crisis -- especially valuable when a reader is stranded on a downed shuttlecraft with only a com-badge and a self-sealing stem-bolt.

Cadet Worf arrives at Starfleet Academy™ as the first Klingon to gain entrance since the Federation-Klingon, Peace Treaty. Raised on Earth by human parents, Worf wonders whether he is still a Klingon, the proud member of an honorable warrior race, or is he more human? Command-level classes fill his schedule, but nothing prepares him for his fellow cadets, among them his human foster brother. Intelligent, ambitious, and confident, the Academy cadets make life difficult for the young warrior. Worf must win over his classmates -- including the always logical Vulcans and the fierce Brikar -- even though they are still trained to think of him as the enemy. Then a routine trip to a training satellite turns into an unexpected disaster, and Worf must unite the cadets and risk his life before a terrible accident destroys the entire mission.

An enemy so intractable that it cannot be reasoned with. The entire race thinks with one mind and strives toward one purpose: to add our biological distinctiveness to their own and wipe out individuality, to make every living thing Borg. In over two centuries, the Federation has never encountered a greater threat. Twice Starfleet assembled and threw countless starships to stand against them. The Borg were stopped, the price paid in blood. Humanity breathed a sigh of relief, assuming it was safe. And with the destruction of the transwarp conduits, the Federation believed that the killing blow had finally been struck against the Borg. Driven to the point of extinction, the Borg continue to fight for their very existence, for their culture. They will not be denied. They must not be stopped. The old rules and assumptions regarding how the Collective should act have been dismissed. Now the Borg kill first, assimilate later. When the *Enterprise* manages to thwart them once again, the Borg turn inward. The dark places that even the drones never realized existed are turned outward against the enemy they have never been able to defeat. What is revealed is the thing that "no one" believed the Borg could do.

Struggling through his first year at Starfleet Academy, cadet Jean-Luc Picard competes with Roger Wells for number one standing in their class.

Playful, loving, and from a strange new world, *Star Trek Cats* is the perfect gift for fans of, well, *Star Trek* and cats.
