title collects papers on important issues in the field of human resources management, including insights on employment branding, family owned firms, virtual global teams and intrinsic motivation.

Human Resource Strategy provides an overview of the academic and practitioner responses to these and other questions. Applying an integrative framework, the authors review twenty years' worth of empirical and theoretical research in an attempt to reconcile often-conflicting conceptual models and competing empirical results. The authors present much of the relevant research in the context of the critical strategic decisions that executives must actually
