When it was published twenty-five years ago, this book captured a huge audience of Vietnam War protesters, dropouts, and rebels—and their baffled elders. Theodore Roszak found common ground between 1960s student radicals and hippie dropouts in their mutual rejection of what he calls the technocracy—the regime of corporate and technological expertise that dominates industrial society. He traces the intellectual

affluent technological society—all these matters are here discussed, with sympathy and constructive criticism, by a most articulate, wise, and humane historian."

At first glance, the works of Fedor Dostoevsky (1821-1881) do not appear to have much in common with those of the controversial American writer Henry Miller (1891-1980). However, the influencer of Dostoevsky on Miller was, in fact, enormous and shaped the latter's view of the world, of literature, and of his own writing. *The Making of a Counter-Culture Icon* examines the obsession that Miller and his contemporaries, the so-called Villa Seurat circle, had

with Dostoevsky, and the impact that this obsession had on their own work. Renowned for his psychological treatment of characters, Dostoevsky became a model for Miller, Lawrence Durrell, and Anais Nin, interested as they were in developing a new kind of writing that would move beyond staid literary conventions. Maria Bloshteyn argues that, as Dostoevsky was concerned with representing the individual's perception of the self and the world, he became an archetype for Miller and the other members of the Villa Seurat circle, writers who were interested in precise psychological characterizations as well as intriguing narratives. Tracing the cross-cultural appropriation and

music such as house and electro, showing how the genre has been shaped over time by a Black American musical sensibility. Brown revisits Detroit's 1980s techno scene to highlight pioneering groups like the Belleville Three before jumping into the origins of today's international club floor to draw important connections between industrialized labor systems and cultural production. Among the other musicians discussed are Underground Resistance (Mad Mike Banks, Cornelius Harris), Drexciya, Juan Atkins (Cybotron, Model 500), Derrick May, Jeff Mills, Robert Hood, Detroit Escalator Co. (Population One) and Carl Craig. With references to Theodore Roszak's Making of a Counter Culture, writings by African American autoworker and political activist James Boggs, and the "techno rebels" of Alvin Toffler's Third Wave, Brown approaches techno's unique history from a Black theoretical perspective in an effort to evade and subvert the racist and classist status quo in the mainstream musical-historical record. The result is a compelling case to "make techno Black again." DeForrest Brown, Jr is a New York-based theorist, journalist and curator. He produces digital audio and extended media as Speaker Music and is a representative of the Make Techno Black Again campaign.

Counter-narratives only make sense in relation to something else, that which they are countering. The very name identifies it as a positional category, in tension with another category. But what is dominant and what is resistant are not, of course, static questions, but rather are forever shifting placements. The discussion of counter-narratives is ultimately a consideration of multiple layers of positioning. The fluidity of these relational categories is what lies at the center of the chapters and commentaries collected in this book. The book comprises six target chapters by leading scholars in the field. Twenty-two commentators discuss these

the region has escaped unchanged. Here, Middle East experts Lin Noueihed and Alex Warren explain the economic and political roots of the Arab Spring and assess the road ahead. Through research, interviews, and a wealth of firsthand experience, the authors explain the unique obstacles each country faces in maintaining stability. They analyze the challenges many Arab nations face in building democratic institutions, finding consensus on political Islam, overcoming tribal divides, and satisfying an insatiable demand for jobs. In an era of change and uncertainty, this insightful guide provides the first clear glimpse of the post-revolutionary future the Arab Spring set in motion.

The West has drawn upon Hinduism on a wide scale, from hatha yoga and meditation techniques, to popular culture in music and fashion, yet the contribution of Hinduism to the counter-culture of the 1960s has not been analysed in full. *Hinduism and the 1960s* looks at the youth culture of the 1960s and early 1970s, and the way in which it was influenced by Hinduism and Indian culture. It examines the origins of the 1960s counter-culture in the Beat movement of the 1950s, and their interest in Eastern religion, notably Zen. When the Beatles visited India to study transcendental meditation, there was a rapid expansion in interest in Hinduism. Young people were

already heading east on the so-called 'Hippie Trail', looking for spiritual enlightenment and an escape from the material lifestyle of the West. Paul Oliver examines the lifestyle which they adopted, from living in ashrams to experimenting with drugs, sexual liberation, ayurvedic medicine and yoga. This engaging book analyses the interaction between Hinduism and the West, and the way in which each affected the other. It demonstrates the ways in which contemporary Western society has learned from the ancient religion of Hinduism, and incorporated such teachings as yoga, meditation and a natural holistic lifestyle, into daily life.
