Excerpt from The Veiled Picture, or the Mysteries of Gorgono, the Appennine Castle of Signor Androssi: A Romance of the Sixteenth Century
D' Orville ordered his carriage at an early hour, and Emily observed that he appeared silent and dejected on the way home, but, supposing it might arise from the company and place he had quitted, she thought it would in a short time be removed. Week after week passed, however, and the Oppression of his spirit and languor increasing, a physician was called, who immediately prescribed the air of Provence, whither they prepared immediately to depart, having first discharged all the servants, except Thelesa, to counterbalance the expences of their excursion. As the clock struck twelve, Emily had just finished packing up her books and instruments, when, in returning to her own room, she observed that her father standing wide open. Seminar paper from the year 2006 in the subject English - Literature, Works, grade: 1,3, University of Münster, 19 entries in the bibliography, language: English, abstract: This brought to her [Emily's] recollection the veiled picture, which had attracted her curiosity on the preceding night, and she resolved to examine it. [...] She then hastily entered the chamber, and went towards the picture, which appeared to be enclosed in a frame of uncommon size, that hung in a dark part of the room. She paused again, and then, with a timid hand, lifted the veil; but instantly let it fall - perceiving that what it had concealed was no picture, and, before she could leave the chamber, she dropped senseless on the floor. Whatever Emily, the main character in Ann Radcliffe ' s novel The Mysteries of Udolpho, might have perceived behind that black veil will not be revealed for several hundred pages. The reader is left baffled as to what caused Emily all this pain and has to resort to guesswork, only to find out that she had simply seen a wax figure, shaped like a human being who was tortured to death. Ann Radcliffe has become famous for this method, that is for " a sequence of evasions and withdrawals, concluding with long-subsequent explanations. " 2Radcliffe developed the technique of the so-called ' supernatural explained ' and became famous for this device; a device that was well received in her times and made her one of the most famous novelists of her age. Several editions of her books and a 500 pound salary paid by her publisher George Robinson, an immense sum for the time, might be proof. 3Nevertheless Radcliffe ' s novels and her technique of the supernatural explained have been and still are heavily criticised, not only by modern literary critics. This term paper deals with Radcliffe ' s method in her book The Mysteries of Udolpho. After a definition has been given the reception of Ann

Radcliffe ' s work throughout the decades will be discussed, before Terry Castle ' s new approach " The Spectralization of the Other in The Mysteries of Udolpho " will be introduced. Finally a conclusion will be drawn.

On the pleasant banks of the Garonne, in the province of Gascony, stood, in the year 1584, the chateau of Monsieur St. Aubert. From its windows were seen the pastoral landscapes of Guienne and Gascony stretching along the river, gay with luxuriant woods and vine, and plantations of olives. To the south, the view was bounded by the majestic Pyrenees, whose summits, veiled in clouds, or exhibiting awful forms, seen, and lost again, as the partial vapours rolled along, were sometimes barren, and gleamed through the blue tinge of air, and sometimes frowned with forests of gloomy pine, that swept downward to their base. These tremendous precipices were contrasted by the soft green of the pastures and woods that hung upon their skirts; among whose flocks, and herds, and simple cottages, the eye, after having scaled the cliffs above, delighted to repose. To the north, and to the east, the plains of Guienne and Languedoc were lost in the mist of distance; on the west, Gascony was bounded by the waters of Biscay.
