Standards. Since the early 1920`s many standards have evolved both in Britain and all over the world. Most of these standards are now obsolete so there is one international standard that is really important to remember - IEC 60079. IEC 60079-10 - Classification of Hazardous Areas IEC 60079-14 - Construction of electrical installations IEC 60079-17 - Inspection and

CompEx - Basic Principles | SparkyFacts.co.uk

These materials (usually a "Toolbox Guide" and a "Course Notes") will be expected to be studied by the candidate before attending the course. It is advisable to take this very seriously, since the three days available on the course for actual studying is very little time in relation to the scope of the material for the CompEx exam. After completion:

The CompEx exam | SparkyFacts.co.uk

This certification validates the core competency of practitioners working in explosive atmospheres. It also offers complete reassurance to employers managing the safety of these potentially hazardous workplaces and can provide the added benefit by assisting employers reduce their insurance costs.
