It is unique because corrosion data are presented in terms of 'corrosives' or environments rather than in terms of materials. Key Features: This text covers practically all the important aspects of corrosion engineering and corrosion science, including noble metals, "exotic" metals, nonmetallics, coat The third edition maintains the unique ...

Journal of Corrosion Science and Engineering

Corrosion prevention measures, including Cathodic protection, designing to prevent corrosion and coating of structures fall within the regime of corrosion engineering. However, corrosion science and engineering go hand-in-hand and they cannot be separated: it is a permanent marriage to produce new and better methods of protection from time to time.

Corrosion engineering - Wikipedia

This journal publishes original papers and critical reviews in the fields of pure and applied corrosion, the degradation of materials, and both surface science and engineering. It forms an important link between metallurgists, materials scientists and all investigators of corrosion and degradation

In March 2019, members of NASA's Mars 2020 project installed the Mars Oxygen In-Situ Resource Utilization Experiment (MOXIE), which is no bigger than a car battery, into the chassis of the Perseverance rover. MOXIE will demonstrate a way that future explorers might produce oxygen from the Martian atmosphere for propellant and for breathing.

With Perseverance and a little MOXIE, MIT is going to Mars ...
