As of this writing, Gutenberg has over 57,000 free ebooks on offer. They are available for download in EPUB and MOBI formats (some are only available in one of the two), and they can be read online in HTML format.

### How To Use Guide Coat

A guide coat is a light misting of paint or primer in a contrasting color above each coat of primer. I use rattle-can "sandable primer." In Figure 1 you can see that the guide coat (black) is misted over the primer coat (grey). The purpose of this coat will become obvious as you begin to sand the primer. Next time we'll go over the process of sanding down this guide coat and you'll see exactly what function the guide coat serves.

### How to Use a Guide Coat - Part I — WHITE GLOVE FANS

This is a simple and easy trick on how to save you time and money when doing body work on a car or truck. By using a guide coat directly to your bondo, you will become a professional in no time.

### Block Sanding BONDO-Using A Guide Coat

Typically we use a black guide coat over the gray primer. After the guide coat is applied, we will use long sanding blocks to sand the guide coat off. What will happen is that the guide coat will sand off of the high spots, and will stay in place in any low spots. This will allow us to see any imperfections. If the low spots are low enough we will use a glaze to very lightly build up the surface. Then we will prime, sand and guide coat again.

### Auto Body Tips Block sanding with Guide coat - YouTube

The process of guide coat is fairly simple. Typically you do your body filler and seal the repairs with gray primer. From there you can apply a contrasting color guide coat (usually black over gray primer or tan guide coat over black primer). The guide coat is misted onto the surface leaving a spotty looking finish.

### **Dry Guide Coats**

There are dry rub on guide coats and aerosol spray versions, but they both work the same way. By spraying a contrasting color over the primer, when sanded the guide coat quickly come off the high spots, and stays in the low spots guiding where you need to further block. Guide coat is like no build paint, sanding off with the least effort possible.
