Introduction:Between 1760 and 1860, technological progress, education, and an increasing capital stock transformed England into the workshop of the world. The industrial revolution, as the transformation came to be called, caused a sustained rise in real income per person in England and, as its effects spread, the rest of the Western world.

Industrial Revolution and Social Changes

Brian Varian 29 May 2016. Modern discussions about a country's 'decline in manufacturing' are seldom meaningful. Such talk of industrialisation and deindustrialisation across the entire sector tends to ignore important variation across individual industries. This column draws lessons from the revealed comparative advantage of late-Victorian Britain – the 'workshop of the world'.

The Industrial Revolution (18-19th Century) - YouTube

The Industrial Revolution took place from the 18th to 19th centuries, and it was a period during which mainly agrarian/ rural societies in Britain became industrial and urban. Before the Industrial Revolution took place, manufacturing was often done in people's homes, using hand tools or basic manual machines.

Grade 8 - Term 1: The Industrial Revolution in Britain and ...

The Industrial Revolution was the first period in history during which there was a simultaneous increase in both population and per capita income. According to Robert Hughes in The Fatal Shore, the population of England and Wales, which had remained steady at six million from 1700 to 1740, rose dramatically after 1740.
