Gender inequality, especially in the workplace, is a social problem. A history of the problem Since the beginning of the colonies in America, family farms created two different spheres of work for women and men. Men, worked on crops and did the hard field labor, while women stayed home, preparing food and clothes for the family.

Inequality In The Workplace

Beyond sexual harassment, the most obvious instance of inequality in the workplace is wage discrimination.

Frequently referred to as the gender pay gap, this phenomenon observes that women are consistently paid less for performing the same tasks as men.
