Introduction To

Probability And
Statistics Using R

Probability is starting with an animal, and figuring out what footprints it will make. Statistics is seeing a footprint, and guessing the animal. Probability is straightforward: you have the bear. Measure the foot size, the leg length, and you can deduce the footprints.

An Introduction to
Basic Statistics and
Probability - p. 4/40.

Example. Suppose we
roll two die and take
their sum. $S =$

$\{2,3,4,5,\dots,11,12\}$

$\Pr(\text{sum} = 5) = \frac{4}{36}$.

Because we get the
sum of two die to be 5
if we roll a

$(1,4), (2,3), (3,2)$ or

$(4,1)$. An Introduction
to Basic Statistics and
Probability - p. 5/40.

Introduction To Probability And

An Introduction to Basic Statistics and Probability

The tools of probability theory, and of the related field of statistical inference, are the keys for being able to analyze and make sense of data. These tools underlie important advances in many fields, from the basic sciences to engineering and management. This
